PRINTING AND PHOTOGRAPHY DIVISION
WEEKLY REPORT FOR PERIOD ENDING
7 April - 13 April 1983

I. Items or Events of Major Interest that have Occurred During the Preceding Week

STAT

B. Agency Publishing Network (APN): The members of the APN working group met at P&PD on April 11 to discuss various Wang installations and the requirement for the necessary transfer of data to P&PD ETECS. After the meeting, the group was given a tour of the Digital Prepress area and a live demonstration of the EOCOM laser platemaker.

C. FBIS Program: Wednesday, April 13, will mark the inauguration of the conversion to typesetting for two of the eight FBIS Daily Reports. A magnetic tape of FBIS information is scheduled for processing and subsequent printing this evening.

II. Significant Events Anticipated During the Coming Week

A. Power Outage: On Saturday, April 16, the P&PD Main Plant will be closed from 8 to 10 hours commencing at 8 a.m. Electricians will be upgrading the major curcuit breakers for the building and all operations will be shut down during that period.

B. Air Force Visit: On April 18, Stan Garden and Jim Fisher from the Air Force, Foreign Technology Division will visit P&PD for briefings and demonstrations of prepress equipment. The laser platemaker is of primary interest during this visit.
